

6th Street Sidewalks Project

CONSTRUCTION NOTICE

June 3, 2013

Planning

Design

Construction

Complete

- **Provide Continuous Sidewalks**
- **Improves Pedestrian Connections, Safety and Livability**
- **Upgrades to Meet Americans with Disabilities Act (ADA) Requirements**

Made possible with grant funding from the Washington State Transportation Improvement Board

Thank you in advance for your patience and cooperation as we make improvements to your neighborhood.

What: CONSTRUCTION BEGINS MONDAY, JUNE 10 - the city of Kirkland is pleased to announce that its contractor, NPM Construction Company, will begin constructing new sidewalks, ADA ramps and make crosswalk and storm sewer improvements for the 6th Street Sidewalks Project starting June 10. Sidewalks are planned for the east side of 6th Street South from Kirkland Avenue south to tie into the existing sidewalk. Additionally, all crosswalk ramps within the limits of the project will be upgraded to meet requirements of the Americans with Disabilities Act (ADA), and a new crosswalk across Kirkland Avenue will be installed. Lastly, storm drainage improvements will be made at the intersection.

Where: 6th Street South, south of Kirkland Avenue, and along the north side of Kirkland Avenue from 6th Street going west. See the map on the reserve side of this notice.

Why: This project completes missing sidewalks where gaps exist, east of the Moss Bay Neighborhood which borders the central business district, ranking high for improving pedestrian connections. Constructing sidewalks and ADA ramps allows for pedestrians to get to their destinations more safely and directly. In addition, the improvements to the storm drain will facilitate a cleaner, more efficient system.

When: Construction is expected to begin June 10 with anticipated completion in September 2013. Typical hours of construction will be from 7:00 a.m. to 6:00 p.m. The contractor is required to keep both lanes of traffic open on 6th Street South during peak hours (before 9:00 a.m. and after 3:30 p.m.).

What to Expect: During construction traffic lane widths will be reduced to allow room for work, thereby impacting traffic. Some construction may also require lane closures during non-peak hours. Commuters and drivers should:

- expect congestion on 6th Street and Kirkland Avenue,
- plan their trips ahead, and
- use alternate routes if possible.

Also, street parking may be limited in order for the contractor's vehicles and equipment to be located for efficient and safe work. Please watch for traffic control flaggers, and *give construction workers a "brake."*

For more information on the project/ Para más información:

- 24-hour project information hotline/ **Para más información***, (425) 587-3838
 - Alternative formats available/711 (TTY Relay)
